Portfolio: evinissac.github.io

PROFESSIONAL SUMMARY

QA Engineer with 2+ years of hands-on experience in Manual Testing, API Testing, and Database Validation across WordPress/WooCommerce plugins, healthcare web applications, and Bootstrap frontend templates. Skilled in Functional, Regression, Cross-browser, and Exploratory Testing within Agile, SDLC, and STLC environments. Katalon Practitioner certified (2025) and actively building expertise in Test Automation and AI-assisted testing approaches. Proven ability to write clear, reproducible bug reports and validate data integrity using SQL and Postman.

CORE SKILLS

Testing Types: Manual Testing, Functional Testing, Regression Testing, Exploratory Testing, Cross-browser Testing, UI/UX Testing, Responsive Testing, Security Testing, API Testing, Database Testing, Web Testing

Tools and Technologies: Postman, JIRA, Katalon Studio, SQL

Methodologies: Agile, SDLC, STLC, QA/QC Concepts, Defect Management, Bug Tracking, Test Design, Test Execution

Domains: E-Commerce, WooCommerce, WordPress, Healthcare/Clinic Management, Retail Inventory Management

Browsers: Chrome, Firefox, Safari, Edge (Desktop, Tablet, Mobile)

Emerging Focus: AI-Assisted Test Automation, Automation Strategy Research

PROFESSIONAL EXPERIENCE

QA Engineer | Zennode Technologies

Aug 2025 - Present | Kozhikode, Kerala, India

- Perform Manual and API Testing (Postman) across three product lines: WordPress/WooCommerce plugins, healthcare web applications (clinic management tools), and Bootstrap-based frontend templates
- Execute Functional, Regression, Cross-browser, and Exploratory Testing across Agile sprint cycles; design test cases, track defects, and manage workflows in JIRA
- Conduct UI/UX and Responsive Testing of Bootstrap templates across Chrome, Firefox, and Safari on desktop, tablet, and mobile breakpoints
- Perform domain-specific testing for healthcare workflows including patient records, appointment flows, and role-based access control with focus on data accuracy and privacy
- Research and evaluate AI-assisted Test Automation tools as part of the team's tooling strategy
- Write clear, reproducible bug reports and contribute to release sign-off documentation

Junior Product Specialist (Manual QA) | RetailCloud

Aug 2024 - Aug 2025 | Kozhikode, Kerala, India

- Performed Manual QA on a retail inventory management system covering functional, UI, API, and database testing across releases

- Designed and executed test cases for inventory workflows: stock movement, SKU and catalog management, and reporting modules
- Validated backend endpoints against UI behavior and database state using Postman API Testing
- Conducted SQL-based database validation to verify data integrity after transactions including stock updates, order flows, and reconciliation
- Executed UI and Cross-browser Testing across Chrome, Firefox, and Edge with responsive checks on tablet and mobile
- Logged, reproduced, and tracked defects through resolution; coordinated with developers and product teams for fixes and regression verification

QA Intern | STC Technologies Pvt Ltd

May 2024 - Aug 2024

- Built foundational expertise in Manual Testing, test case writing, and SDLC/STLC methodologies
- Gained hands-on practice with Functional and Regression Testing
- Developed strong fundamentals in bug reporting, test execution, and documentation standards

Technical Analyst | Activelobby (supportlobby.com)

Oct 2022 - May 2024 | Ernakulam, Kerala, India (Remote)

- Executed enterprise data migration using BitTitan and AvePoint; migrated mailboxes, drive data, and chat history from Google Workspace to Microsoft 365 and from on-premise environments to cloud
- Conducted pre-migration assessments, migration planning, execution, and post-migration validation to verify data integrity across users and workloads
- Provisioned cloud infrastructure on Microsoft Azure and Oracle Cloud; created and configured VMs and instances for developer teams
- Troubleshoot migration failures, permission issues, and connectivity problems across hybrid environments
- Authored migration procedure documentation and handed over to client teams
- Collaborated remotely across distributed teams and client time zones

CERTIFICATIONS

- Katalon Practitioner Level Certification - Katalon (Issued Sep 2025, Valid through Sep 2027)

EDUCATION

Bachelor of Technology (B.Tech), Electrical and Electronics Engineering

Sahrdaya College of Engineering & Technology (Autonomous) | Jul 2014 - Apr 2018

ADDITIONAL ACTIVITIES

- Crowd Testing: Active tester on the Test IO platform
- Independent Security Testing: Hands-on security testing of WordPress and WooCommerce plugins
- Continuous Learning: Researching practical applications of AI tools in test automation workflows
